REQUEST FOR CERTIFICATE OF CORRECTION UNDER 37 CFR § 1.322 FOR
CORRECTION OF OFFICE MISTAKE

ATTN: Certificate of Correction Branch
Honorable Commissioner of Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

As provided in detail in the attached, the patentee respectfully requests that a Certificate of Correction be granted in the above-identified patent to correct a mistake in a patent, incurred through the fault of the Office.

Under 37 CFR 1.322, "The Commissioner may issue a certificate of correction pursuant to 35 U.S.C. 254 to correct a mistake in a patent, incurred through the fault of the Office, which mistake is clearly disclosed in the records of the Office at the request of the patentee or the patentee's assignee."

The patentee furthermore requests Expedited Issuance of this Certificate of Correction in accordance with MPEP § 1480.01. Specifically, this section provides that:

In an effort to reduce the overall time required in processing and granting Certificate of Correction requests, the Office will expedite processing and granting of patentee requests where such requests are accompanied by evidence to show that the error is attributable solely to

MAY 15 2007

the Office Where the correction requested was incurred through the fault of the Office, and the matter is clearly disclosed in the records of the Office, and is accompanied by documentation that unequivocally supports the patentee's assertion(s), a Certificate of Correction will be expeditiously issued. MPEP § 1480.01

The following error appears to have occurred through the fault of the Office, and the patentee respectfully requests correction thereof.

Apparently due to Patent Office error, the issued patent appears to have improperly omitted a properly submitted claim of foreign priority to JP 09-332479, filed November 17, 1997. The present application is a division of application Serial No. 09/192,234. The '234 application and the present application claim the benefit of foreign priority based on JP 09-332479, filed November 17, 1997. In the '234 application, a claim for foreign priority was perfected with the submission of a certified copy of JP 9-332479, as evidenced, for example, by a stamped received post card bearing an OIPE receipt date of November 16, 1998 (copy attached). In the '234 application, the claim for foreign priority was acknowledged by the Patent Office in the *Fling Receipt* mailed December 4, 1998 (copy attached). In the present application, the claim for foreign priority was made in the *Declaration* and at page 2 of the *Application Data Sheet*, both filed September 29, 2003 (available in the Image File Wrapper for the present application). Also, in the present application, the claim for foreign priority was acknowledged by the Patent Office in the *Fling Receipt* mailed February 9, 2004 (copy attached).

As such, a proper claim for foreign priority was made, perfected and acknowledged by the Patent Office. However, apparently due to a Patent Office error, the foreign priority information was not listed on the face of the resulting patent.

Accordingly, the patentee respectfully requests correction of the face of the patent by adding the foreign priority claim as shown in the attached correction form.

As the error was incurred through the fault of the Office, a fee is not believed to be necessary. Should it be determined that a fee is necessary, any deficiencies or

MAY 15 2007

overages in any fees due in connection with this patent and the requested actions should be applied to Deposit Account No. 50-2280(0756-7195).

Respectfully submitted,

Eric J. Robinson

LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
